

NEWBORN MINISTRY IN TANZANIA – JUNE 2013

THE DEVIL AND HIS DEMONS ARE UNDER OUR FEET

We have just conducted the first leg of our outreach in Tanzania. Our first visit was to the town of Korogwe – estimated population 40 000 people.

Here we conducted a 5-day crusade and 3-day Pastors/leaders Conference. From the first day of the crusade it was evident that many people were suffering from demonic possession.

During the 5 days at least 130 people manifested on the crusade ground. Debbie counted 34 people being carried off the ground on the last day of the crusade.

Pastors did deliverance on these people. The sad part is always to see small children being plagued by demons, but the good news is that every demon had to leave as we called on the Name that's above all other names!

I am always reminded when this happens, of other religions and people who don't believe in the devil and demons or demonic manifestations. I wish they could be here to see our God in action! The greatest miracle of all that took place was the salvation of a multitude who acted on the altar call. What an honor and privilege that we can be part of this wonderful work that God is doing. This includes all our prayer- and financial partners.

District Commissioner

Many Muslims attended the crusade, including the District Commissioner who opened the event on day one. He stayed for the message and before he left, he told me that he enjoyed the preaching. Let's keep him in our prayers.

Sometimes we sow, other times we water and other times we bring in the harvest. We are now in Arusha for another 5 days crusade and 3 days of Pastors Conference.

On 23 June we will be going to Papua New Guinea for another crusade and pastors conference.

Keep us in your prayers.
