

NEWBORN MINISTRY

FROM THE HEART OF AFRICA

We arrived in Tabora on Tuesday afternoon after travelling the whole day by air and car. The last 200km was all by gravel road.

When we arrived, we were welcomed by the people of the town. A large number of pastors and church members formed a procession and led us into town. We drove up and down every street in Tabora with people waving us welcome.

The first night of the crusade was well attended and what touched our heart was the eagerness that is among the people to listen to the gospel.

There are many Muslim people in Tabora and we trust that God will send revival to this town.

Last night the crowd doubled and a great harvest came in as I preached about the blood of Jesus.

As witchcraft is prominent here many people started manifesting as the blood of Jesus is against the devil and his demons.

We had great healing testimonies and this morning we started with a 3-day conference.

We believe that God is still going to do more than we can pray or think through the Holy Spirit that lives inside of us.

Thank you for praying for us and supporting us in this greatest cause of all.

Paul said: "By all possible means – let us save some."

Andries, Debbie and Therésa from Tabora, Tanzania
